GeoCloud.Shop provides You

Geospatial Professionals

- Pay-per-use model for working with different software and data
- Always up-to-date software
- Use more - Pay less
- Global support
- Work from Home
- Cost reduction in office computers and IT support
- Scalable computer systems
- Centralized and unified approach to software and data

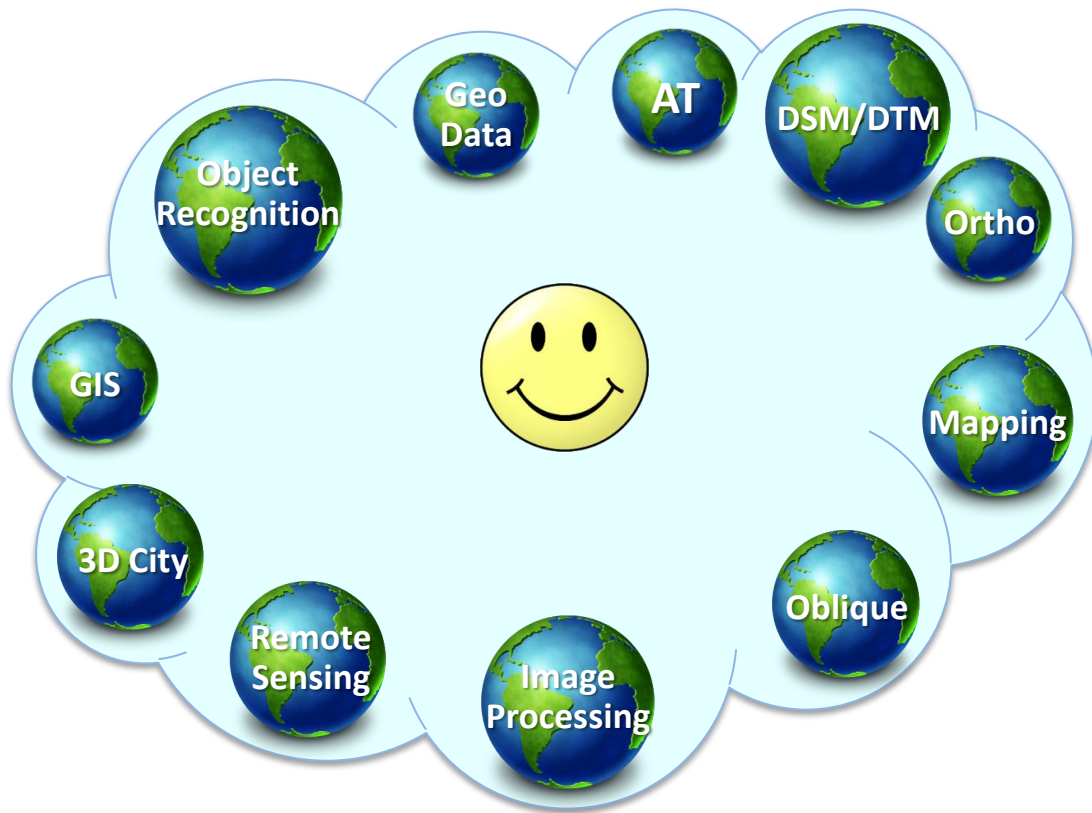

Software Developers

- Pay-per-use sales model as an additional channel for software sales
- Always paid maintenance and support fee
- One-time installation for worldwide use
- Worldwide and diversified customer coverage
- Software piracy prevention
- Advertisement's cost reduction
- Digital platform for traditional pre-sale efforts

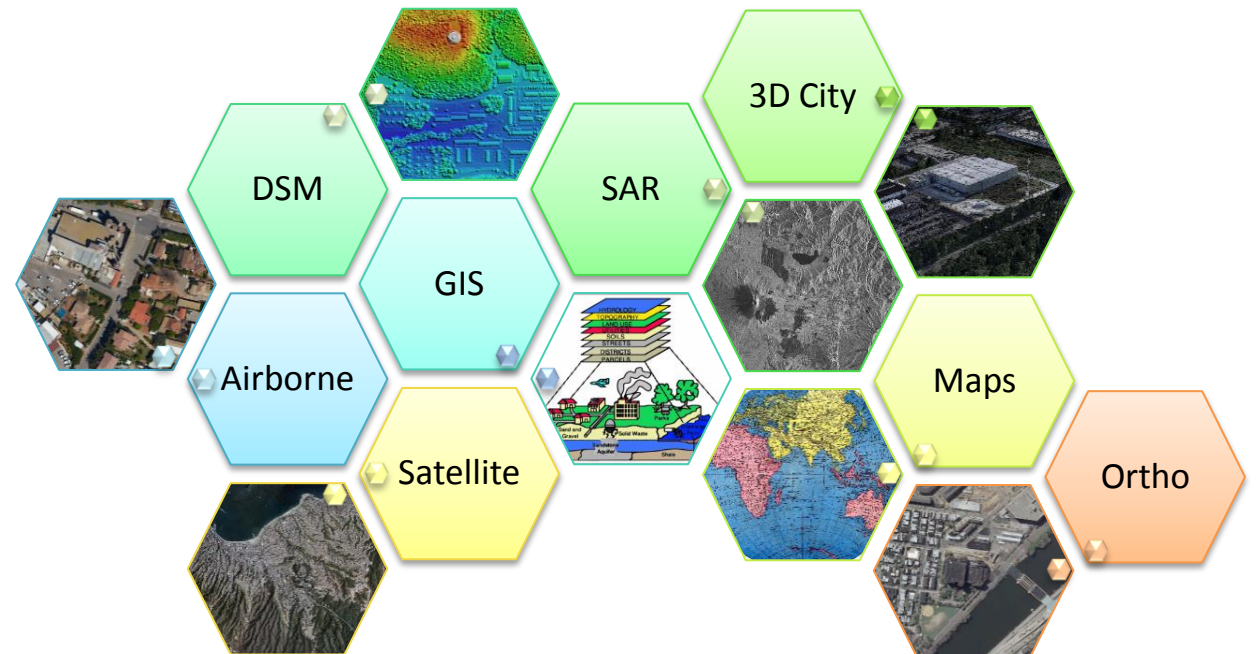

Geodata Providers

- Pay-per-use sales model as an additional channel for data sales
- Direct data delivery interface to users
- Worldwide and diversified customer coverage
- Collaboration platform with software developers and data users

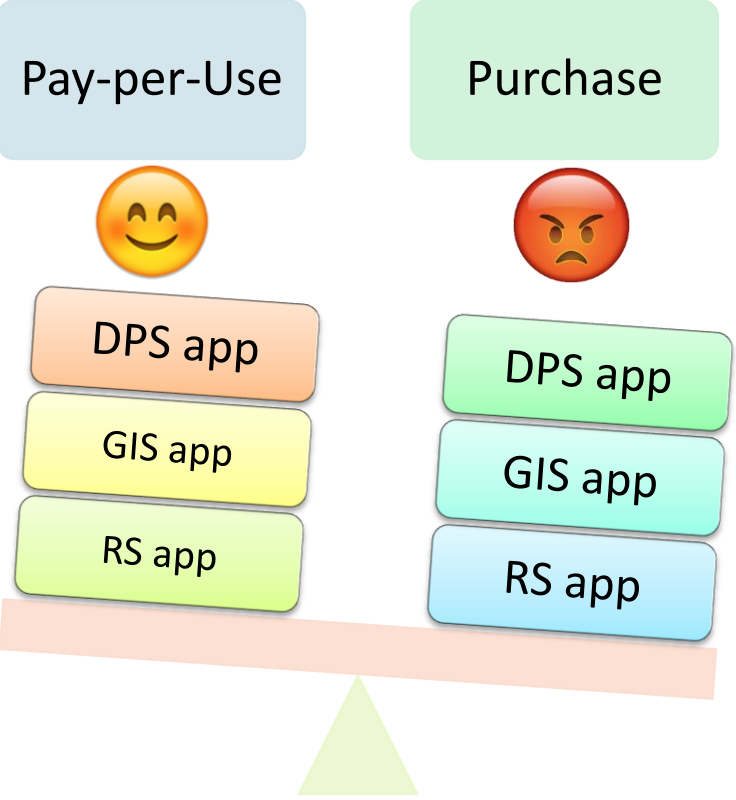

Unified and Convenient Approach

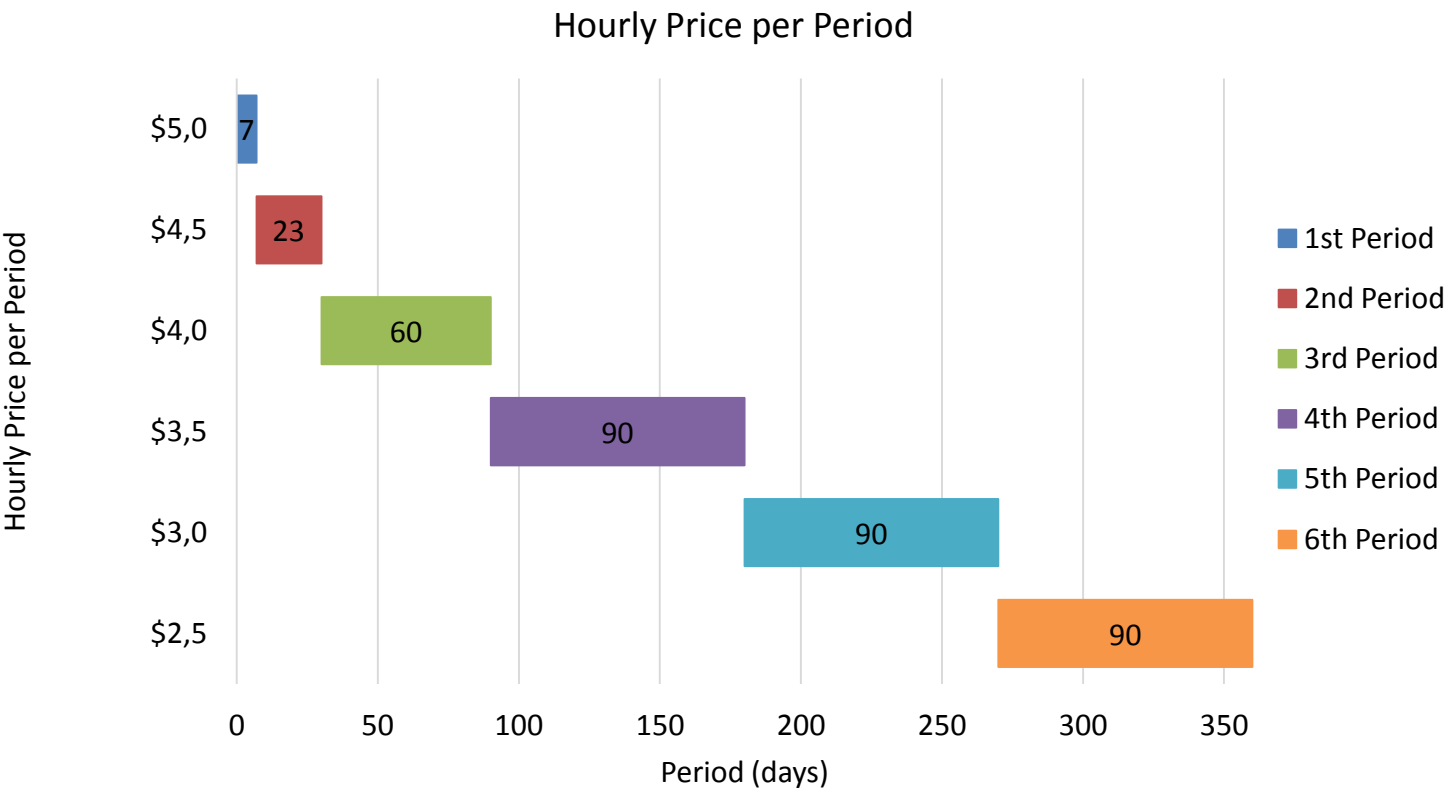

A unified and convenient approach to different geoinformation software and data

Pay-per-Use model

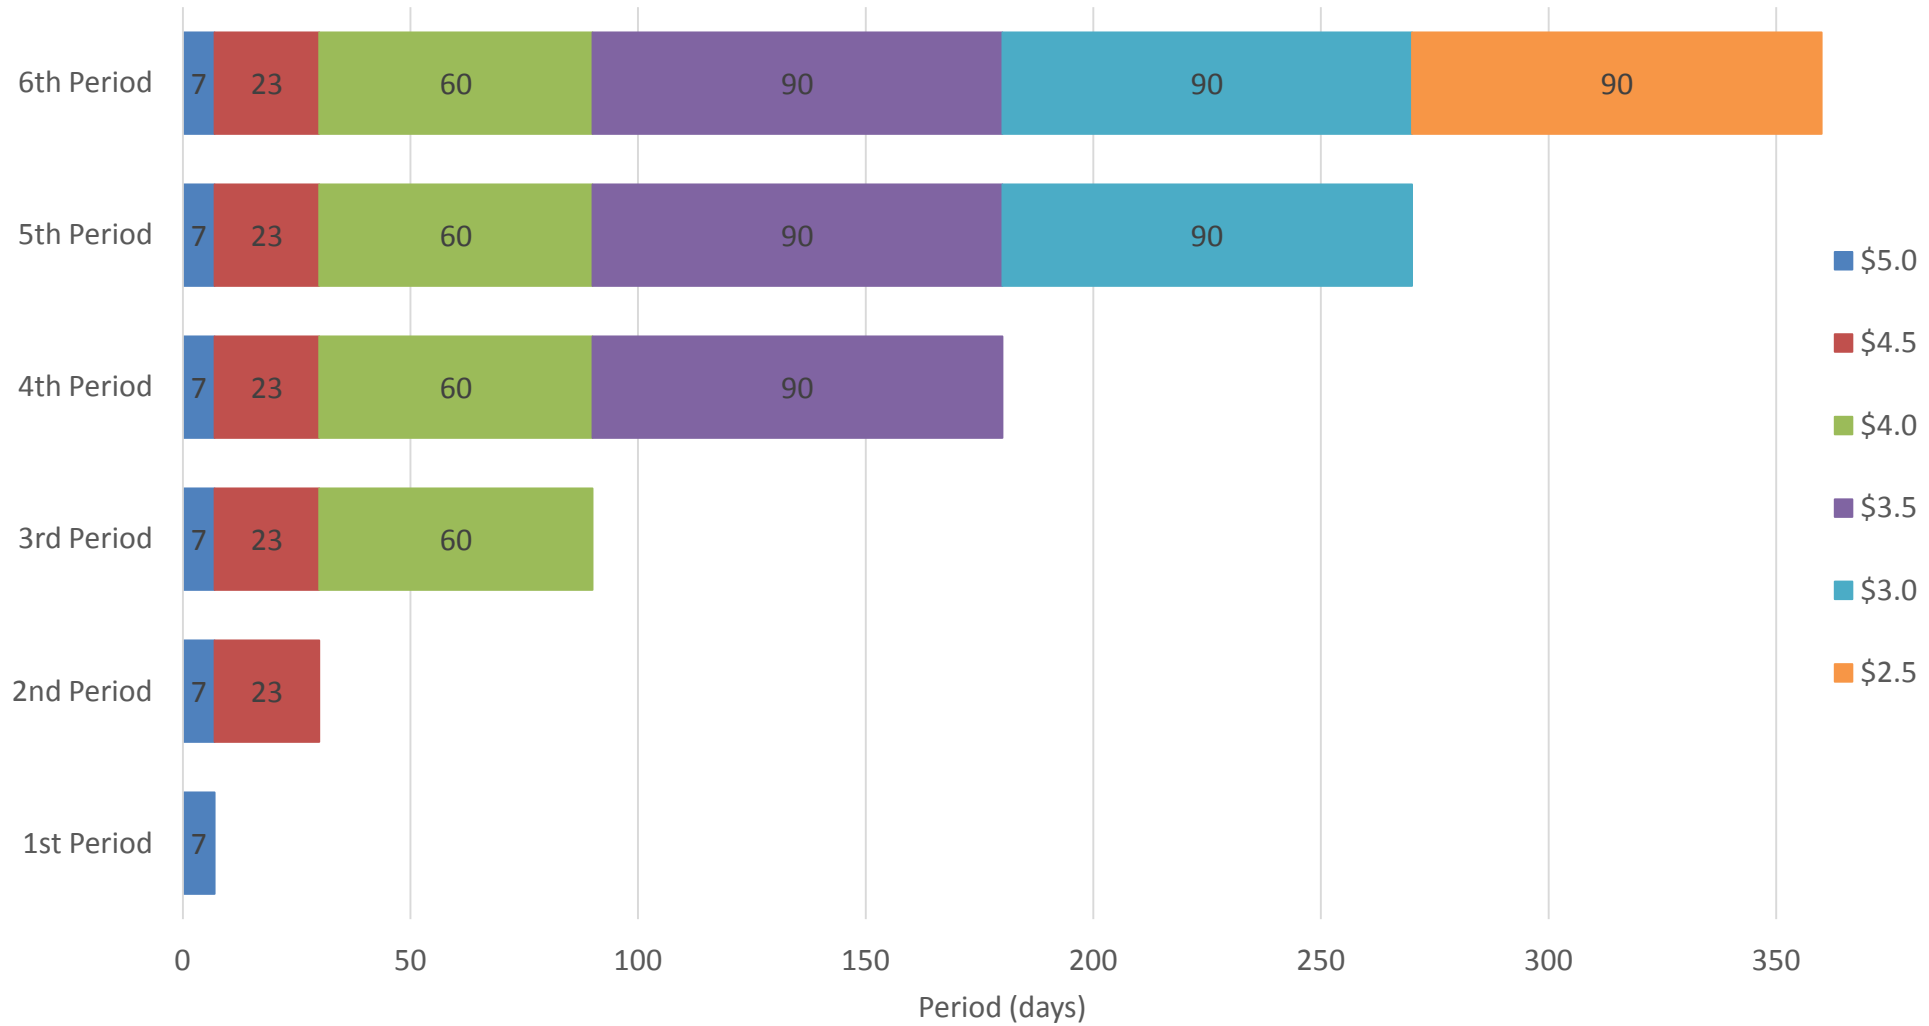

Pay-per-Use model for software and data

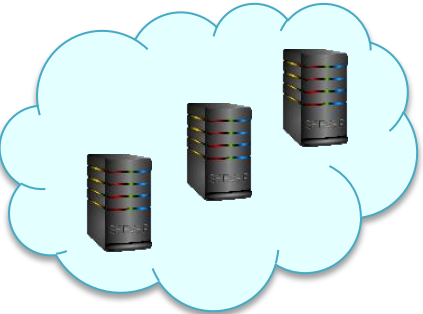

Use more – Pay less

Example of Periods and Prices

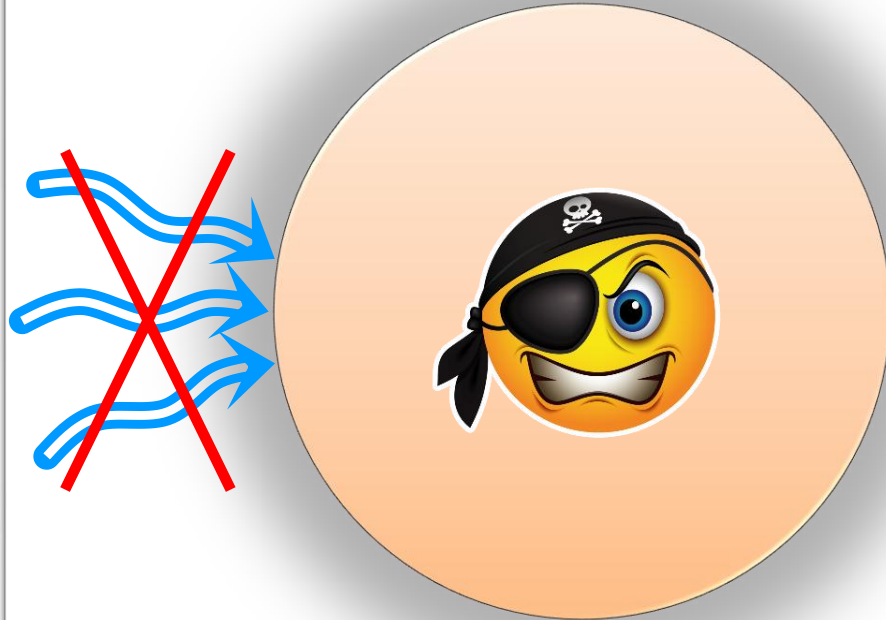

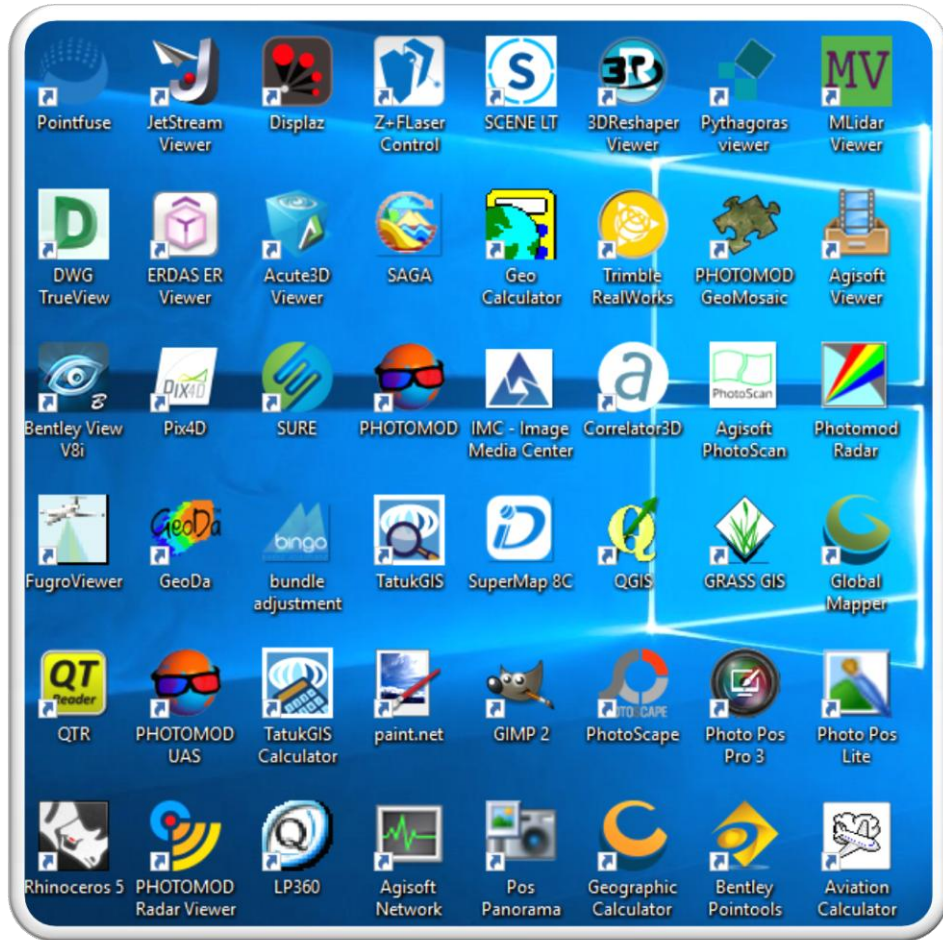

Scalable and Always Available Computers

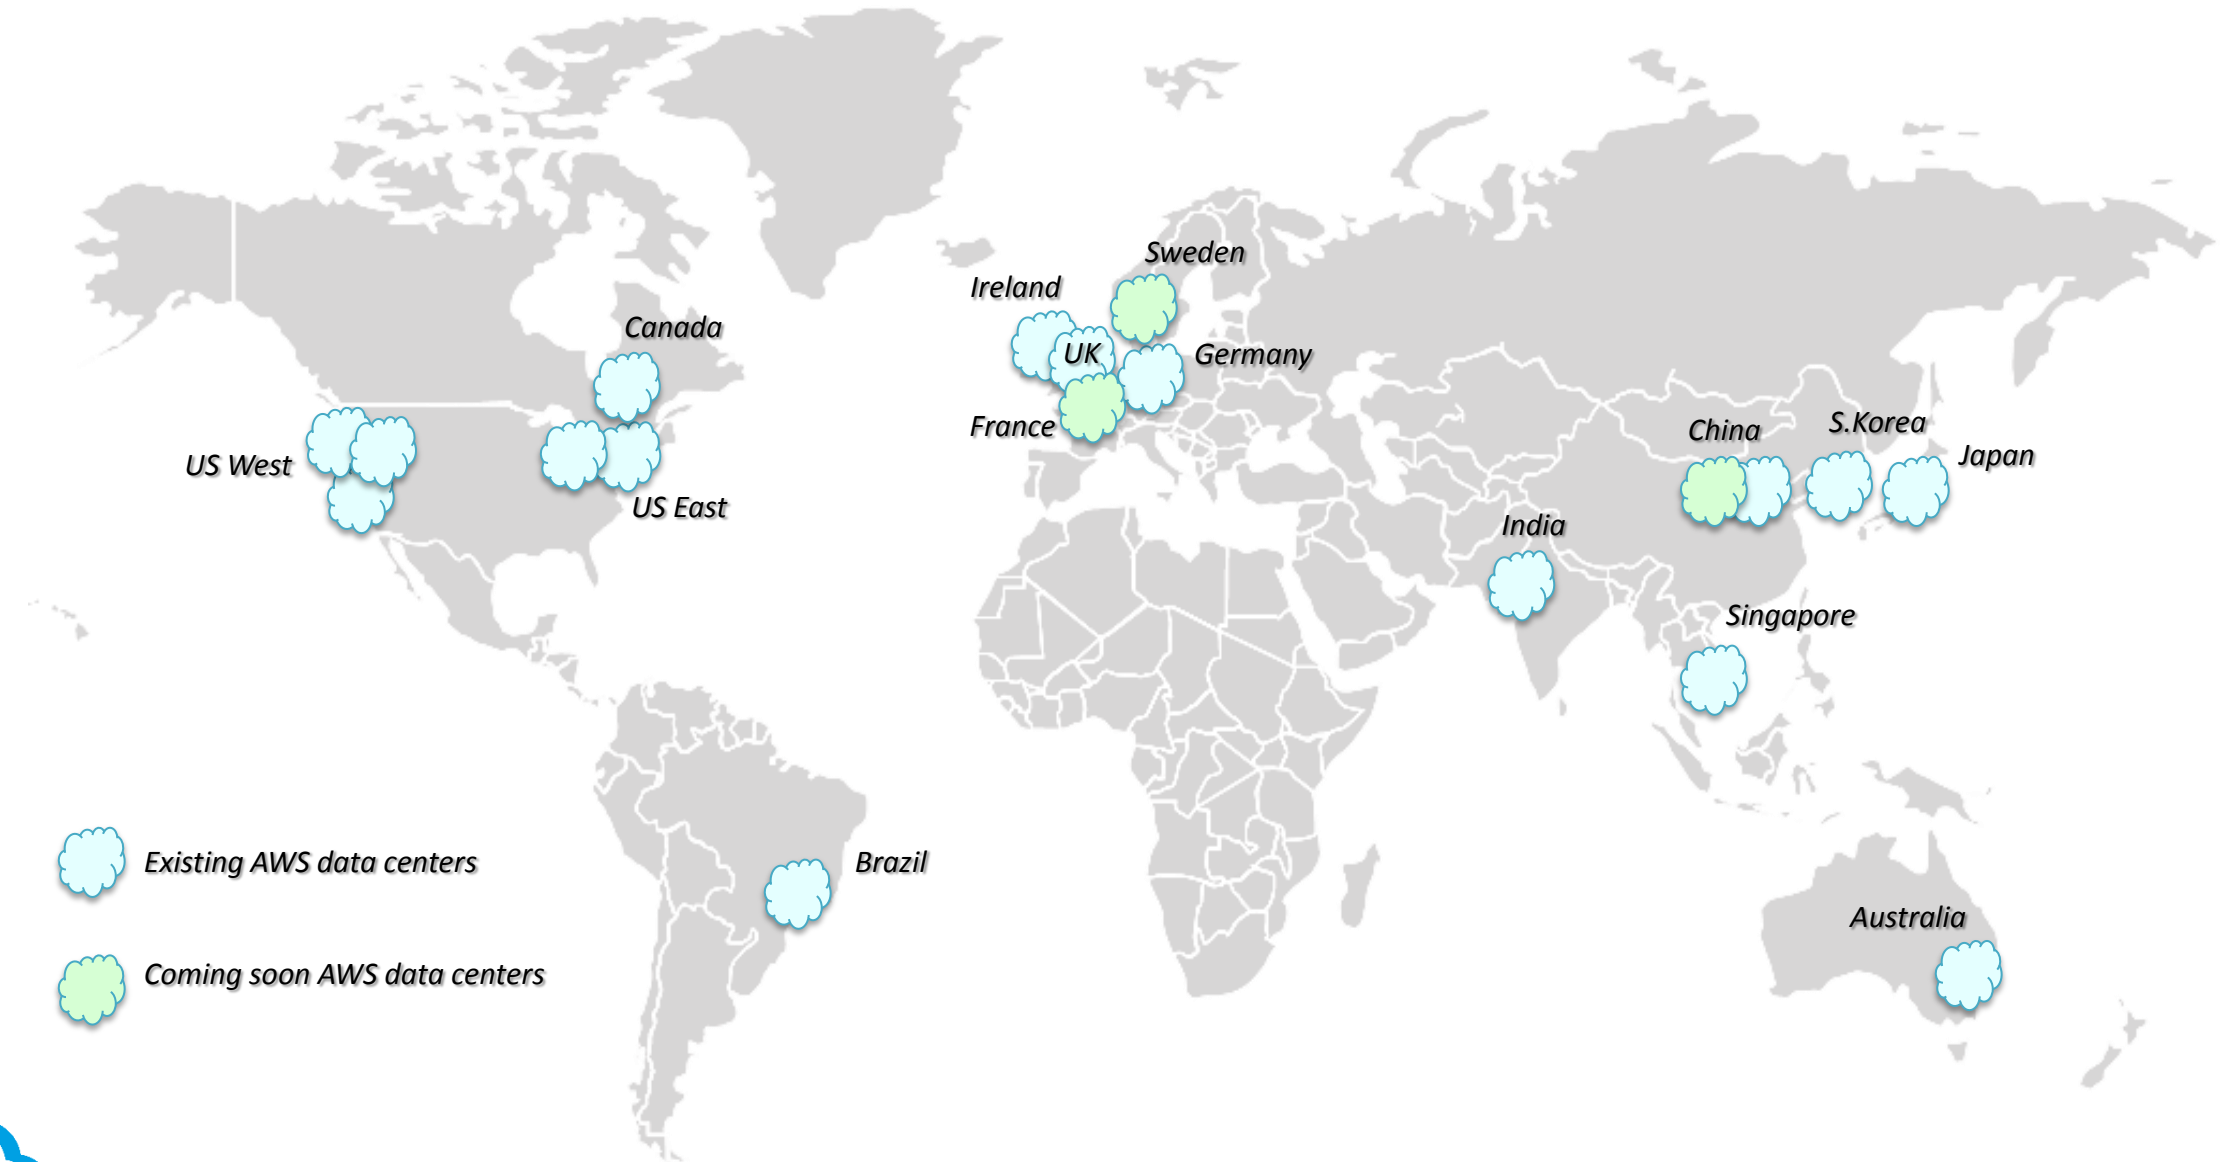

Scalable and always available computer environment – computers, storage, web

Software Piracy Prevention

Technology-based protection against software piracy

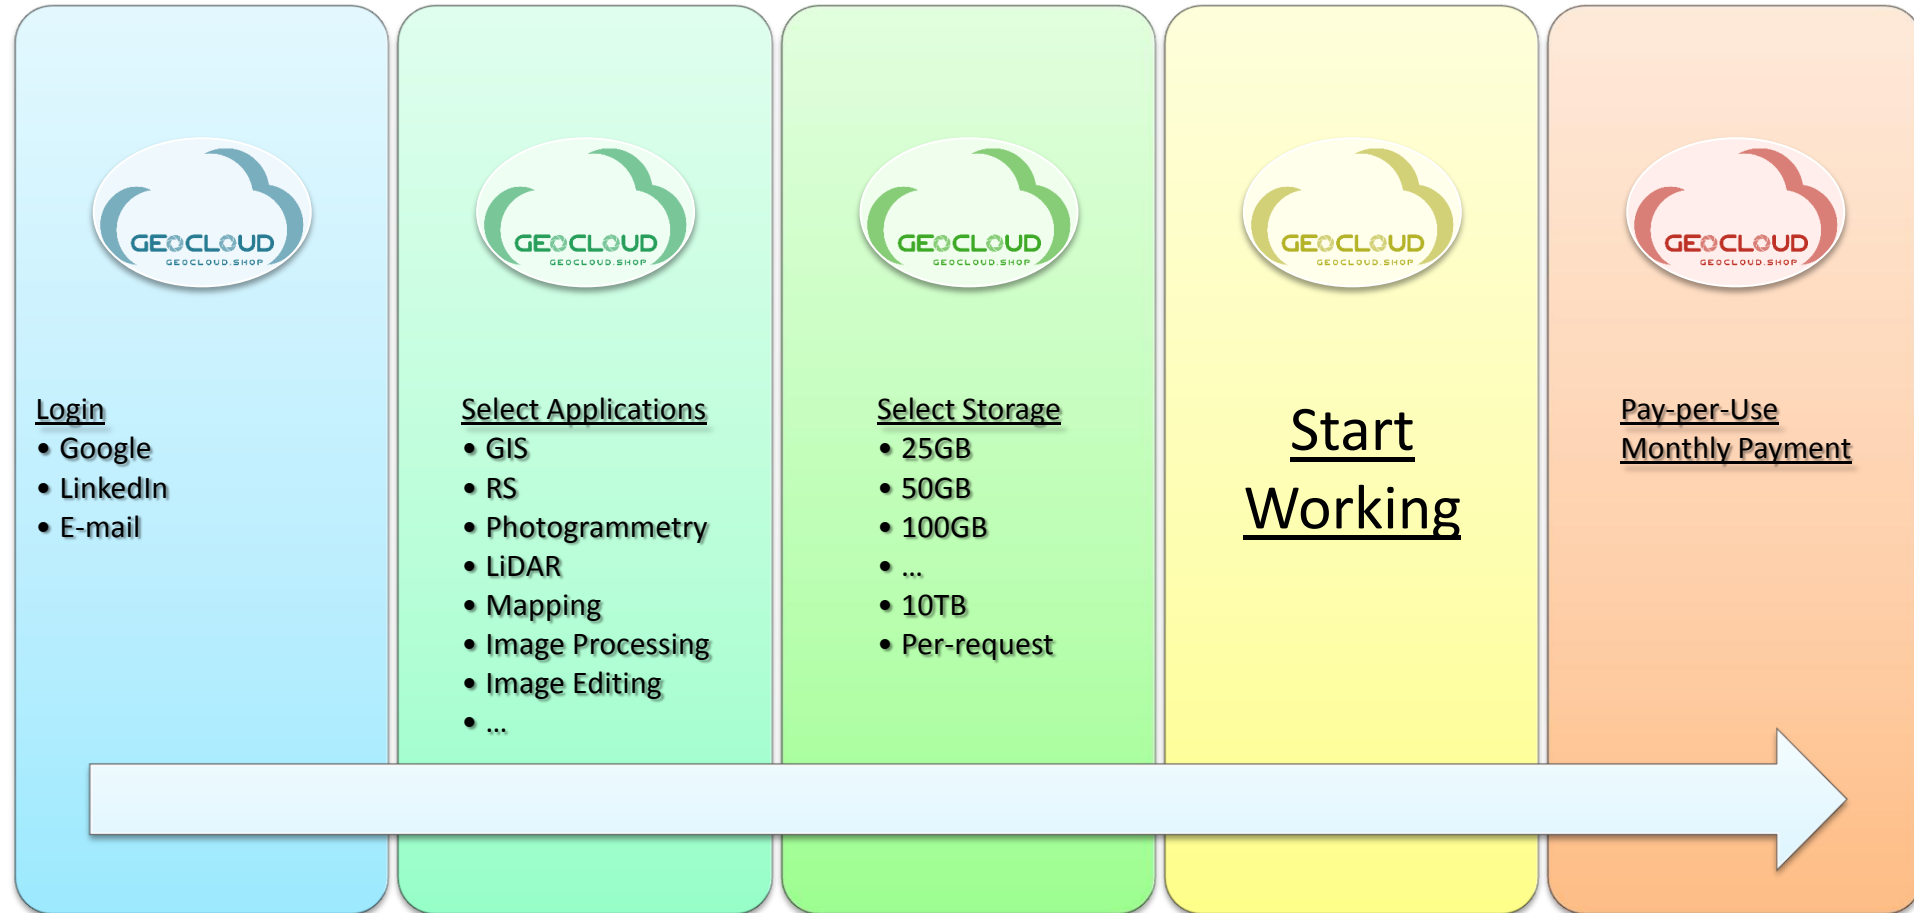

Worldwide Amazon Computer Infrastructure

 Existing AWS data centers

 Coming soon AWS data centers

Simple and Convenient Workflow

Agisoft PhotoScan Pro v1.3.4 8CPU,15GB RAM, NVIDIA(4GB)
Photogrammetric processing of digital images and 3D spatial data generation

Price 4.05\$ Per Hour

Selected

Bingo v6.9 4CPU,16GB RAM
Bundle adjustment program - full camera calibration, aerial vertical & oblique, close range adjustment

Price 3.63\$ Per Hour

Select

Photomod v6.2.2036 4CPU,16GB RAM
Complete Digital Photogrammetric Workstation

Price 4.75\$ Per Hour

Selected

Photomod GeoCalculator 2CPU,8GB RAM
GeoCalculator & Direct Georeferencing & Datum Seven Parameters Calculation

Price 0.42\$ Per Hour

Select

Photomod GeoMosaic v6.2 4CPU,16GB RAM
Combine georeferenced images from any sources into a single seamless and color-balanced mosaic

Price 1.29\$ Per Hour

Selected

Photomod Lite v6.2.2036 4CPU,16GB RAM
Fully functional PHOTOMOD for small scientific and educational projects

Price 0.85\$ Per Hour

Select

Photomod UAS v6.2.2036 4CPU,16GB RAM
Full photogrammetric UAS-oriented software

Price 1.51\$ Per Hour

Select

SuperMap iDesktop 8C v8.1 4CPU,16GB RAM
SuperMap iDesktop 8C GIS

Price 2.86\$ Per Hour
